Student Responses:

The best thing I liked about ConsumerCon was...

- How realistic the whole thing was.
- It was fast and informative.
- Having realistic prices made me realize how expensive things are.
- That your job and income was random, so we could understand the reality of income.
- That we got to learn and decide what was best for us.
- That ConsumerCon gave you a real life scenario. Anything can happen.
- It was really fun. The booths were entertaining and the speakers informed us well.
- We got our own reality and choices within our realities.
